

Ekaterina Melnikova

Product Designer

Novi Sad, Serbia | Residence permit with the right to work | domofeel@gmail.com | [LinkedIn](#) | [Portfolio](#)

Product Designer focused on B2B SaaS, complex admin tools and mobile products. I turn user research and business goals into clear workflows, validate solutions through usability testing, and work with product and engineering teams from discovery to delivery.

Experience

Product Designer | Zhelezno

Jan 2022 - Now

- Led end-to-end product design for B2B dashboards and internal tools, shaping complex workflows into scalable product solutions.
- Built and maintained a web and mobile design system, UX patterns and developer documentation, increasing development speed by 50%.
- Partnered with Product and Engineering, reducing feature rework by 23% and improving roadmap alignment.
- Mentored a junior designer and improved feature delivery time by 14%.
- Redesigned complex B2B admin dashboards, increasing daily user adoption by 40%.
- Conducted user interviews, surveys and usability testing, increasing B2B retention by 42% within 13 months.
- Shipped an employee mobile app used daily by 65% of staff, accelerating task completion by 27%.

UX/UI Designer | ServiceHub

Aug 2021 - Dec 2021

- Improved the usability of the Multifinance fintech SaaS platform through testing and iterative design, increasing employee workflow efficiency by 9%.
- Designed a fast-loan banking app from 0 to 1, leading to 30 loan completions within two weeks of launch.
- Created branding and a landing page for an IT industry festival, generating 37+ qualified leads.

UX/UI Designer | Apple Concierge

Oct 2020 - Dec 2021

- Designed B2B delivery and food-service apps adopted by Gazprombank, Sberbank and Alfa-Bank, increasing service value by 23%.
- Redesigned KPI dashboards and metric-tracking workflows, reducing manager workflow time by 12%.
- Led design from user experiments and wireframes to polished UI and interactive prototypes, improving mobile app user flows by 19%.

Web Designer | CTC Media

May 2020 - Sep 2020

- Redesigned key B2C and B2B marketplace flows, improving user journeys and supporting adoption among 4K+ active users.

Education

Baltic International Academy, Riga | Master's degree, Marketing in Leisure Industry
