

Ekaterina Melnikova

UX/UI Designer

Novi Sad, Serbia | Residence permit with the right to work | domofeel@gmail.com | [LinkedIn](#) | [Portfolio](#)

Profile

UX/UI Designer creating clear, intuitive interfaces for web and mobile products. I combine research, information architecture, interaction design, prototyping and design systems to simplify complex products. I am currently developing a specialization in game UX/UI.

Core Skills

UX: user interviews, surveys, usability testing, heuristic analysis, information architecture, user flows, wireframes

UI and interaction: visual hierarchy, interaction design, responsive web and mobile UI, polished mockups, interactive prototypes

Systems and delivery: design systems, component libraries, design tokens, Figma, developer handoff, documentation, QA

Experience

Senior Product Designer | Zhelezno

Jul 2024 - Present

- Designed complex B2B dashboards and internal tools, turning dense workflows into clear, scalable interfaces.
- Built and maintained web and mobile design-system components, UX patterns and developer documentation, increasing development speed by 50%.
- Worked with Product and Engineering from interaction concepts and prototypes through handoff and QA, reducing feature rework by 23%.
- Mentored a junior designer and improved feature delivery time by 14%.

Middle+ Product Designer | Zhelezno

Jan 2022 - Jul 2024

- Redesigned B2B admin dashboards and navigation, increasing daily user adoption by 40%.
- Used interviews, surveys and usability testing to refine flows and UI, increasing B2B retention by 42% within 13 months.
- Designed an employee mobile app used daily by 65% of staff, accelerating task completion by 27%.

UX/UI Designer | ServiceHub

Aug 2021 - Dec 2021

- Improved a fintech SaaS platform through usability testing and iterative interface design, increasing employee workflow efficiency by 9%.
- Designed a fast-loan banking app from user flows to polished UI, leading to 30 loan completions within two weeks of launch.
- Created branding and a landing page for an IT industry festival, generating 37+ qualified leads.

UX/UI Designer | Apple Concierge

Oct 2020 - Dec 2021

- Designed B2B delivery and food-service mobile apps adopted by Gazprombank, Sberbank and Alfa-Bank, increasing service value by 23%.
- Redesigned KPI dashboards and metric-tracking flows, reducing manager workflow time by 12%.
- Took work from experiments and wireframes to polished UI and interactive prototypes, improving mobile app user flows by 19%.

Web Designer | CTC Media

May 2020 - Sep 2020

- Redesigned key B2C and B2B marketplace flows, supporting adoption among 4K+ active users.

Education

Baltic International Academy, Riga | Master's degree, Marketing in Leisure Industry
